## Full Stack Developer

*Versatile full-stack developer with 10+ years' success designing and developing PHP, Golang and JS-based software solutions; seeking employment opportunities in Canada.*

---

Expertise developing and maintaining functional and stable code and processes to meet corporate requirements. Adept at troubleshooting and debugging applications. Equally capable of managing high-performing project teams or working independently to enhance performance and increase profitability. Expert negotiator and businessperson; able to forge solid relationships with partners and build consensus across multiple organizational levels. Fluent in English.

*Frontend Development • Backend Development • Software Design & Development  
Systems Architecture • Technical Troubleshooting • Team Building & Leadership • Systems Testing*

---

## TECHNICAL PROFICIENCIES

<b>Programming Languages</b>	PHP, Javascript, Golang, ReactJS, NodeJS
<b>Databases, Servers, &amp; Frameworks</b>	MySQL, MongoDB, Angularjs, Flutter, Meteor, Git, Docker, NGINX, Webpack, React Native, ElasticSearch

---

## PROFESSIONAL EXPERIENCE

**Technical Director** (January 2017 - Present) Spektr, Almaty, Kazakhstan  
*Comprehensive solutions for e-commerce to receive, handle payments, and deliver goods/ products/ correspondence.*

Spearhead technological direction, integrating Agile methodology to design, build, and test new technologies and tools, implementing innovative systems for data collection, storage, and management of client orders. Strengthened developmental methodologies by introducing code quality standards. Oversee major new enhancements to existing software systems.

### Key Achievements:

- Manage 26 engineers on five teams in design and development of PHP, Golang, and JS-based software solutions.
- Create, deliver, and maintain scalable system architecture to support high-availability Internet site with multiple internal applications.
- Lead process improvements, increasing team productivity by 70%, developing and implementing Objectives and Key Results (OKRs) for developers and teams.
- Collaborate with developers and performance engineers to enhance supportability and identify performance bottlenecks.

## **Senior Full Stack Developer, Creative Group Vesna** (December 2008 - January 2017)

CTO, Almaty,

*Intelligence asset for commandos involved with reciprocal trade.*

Kazakhstan

Developed and implemented complex Internet and Intranet applications integrating new technologies and frameworks on multiple platforms. Trained junior members of IT team regarding network security and troubleshooting of data circuits. Recommended architectural improvements, design solutions, and integration solutions. Directed projects from concept to completion whilst managing outside vendors.

### **Key Achievements:**

- Troubleshoot and maintained web applications, developing bug fixes and patch sets. Used pipe and filter model to find bottlenecks and record system resource usage and process behavior at boundary limits of operations.

## **Senior Full Stack Developer, Shipper.io** (May 2014 - September 2016)

Maintained and developed bug fixes and patch sets for existing web applications, using pipe and filter model to locate bottlenecks and measure system performance. Championed progress web apps (PWA) and fast modern web technologies.

### **Key Achievements:**

- Developed modification/integration program to establish compatibility with third-party software products.
- Designed data architecture to enable analysts to perform targeted customer analysis.

## **PHP Developer** (June 2007 - December 2008)

SF7 Web-studio, Almaty, Kazakhstan

Directed software design and development whilst remaining focused on client needs. Worked effectively with design teams to ensure software solutions met client expectations. Modified existing software to correct errors, upgrade interfaces, and improve performance. Developed content-management system.

---

## **EDUCATION & CREDENTIALS**

### **Bachelor of Computer Science** (2011)

Technical and Economic Academy of Cinema and Television, Almaty, Kazakhstan

### **Diploma, Software Engineering** (2007)

Technical College of Central Asia, Almaty, Kazakhstan
